☐ **Portable Shredding Operation. Please check this box if you use a portable tire chipper(s) for processing scrap tires.**

SITE MAP: Attach a detailed site map that shows acreage of tire storage area (outdoor), square footage of building(s) (indoor) as covered by the bond, if required. For a site with more than 2,500 scrap tires, including where any vehicles containing tires are stored, the site map must be prepared by a Professional Engineer or licensed surveyor. The site map must match the bond documents. The site map must include dimensions and boundaries of tire storage area(s) to be used, type of storage area (whole, shredded, chips, etc.), bonded area(s), and type of bonding to be used (building and/or acreage). The site map must also depict any area(s) that is exempt from bonding and the dimensions and boundaries of the area(s) (please note that commodity storage area[s] require that a certification be submitted to the DEQ). Please attach the commodity storage area certification, if applicable. The number of vehicles and their location on the site must be indicated on the site map even though these vehicles are exempt from bonding. A site map must be provided with the application each year even if the storage area(s) has not changed.

1. Number of scrap tires brought to site during previous year:	2. Number of tires removed from site during previous year.	3. Number of tires inventoried at the end of the year:	4. Number of Scrap Tires Currently Stored on Site:	Commercial Collection Site Yes <input type="checkbox"/> No <input type="checkbox"/>

INSTRUCTIONS FOR COMPLETING THE SCRAP TIRE COLLECTION SITE REGISTRATION APPLICATION

PLEASE NOTE: ALL FIELDS MUST BE COMPLETED. IF A FIELD DOES NOT APPLY, PLEASE PUT "0," "N/A," ETC. APPLICATIONS WITH BLANK INFORMATION WILL BE DETERMINED TO BE ADMINISTRATIVELY INCOMPLETE AND WILL BE RETURNED.

SUBMITTAL OF THIS FORM AND APPLICATION FEE, AND THE DEQ'S DEPOSIT OF THE FEE, DO NOT GUARANTEE OR IMPLY ISSUANCE OF A COLLECTION SITE REGISTRATION.

DOCUMENTS TO SUBMIT: Submit \$200.00 Site Registration Fee with original, completed, and signed application. Send check or money order (no cash) made payable to the **STATE OF MICHIGAN**. Your application WILL NOT be processed without: (1) the registration fee, (2) proof of ownership, (3) site map (if site has over 2,500 scrap tires, site map must be developed by a Professional Engineer or licensed surveyor and must contain all the necessary information as defined below), and (4) required bonding.

COLLECTION SITE PROPERTY OWNER:

Legal Company Name: Enter the name of the individual, partnership, corporation, association, governmental entity, or other legal entity who owns the property. The property's Legal Company Name will be listed as the Registrant on the issued registration. The owner(s) of the property upon which the collection site business is located or their registered agent must apply for the registration.

Mailing Address: Enter the address where correspondence to the operator should be sent.

Site Address: The address of the collection site even if the same as the mailing address for the property owner. If no actual address, please submit a plat map.

Legal Description of Property: Enter the legal description of the property including Section, Township, and Range. Attach additional pages if necessary.

Property Owner(s): Person(s) who own the property must print and sign their name(s).

Contact Name and Telephone Number: Enter name and telephone number of person to contact if questions on application or operation arise.

DOCUMENTATION OF PROPERTY OWNERSHIP: Only a Warranty Deed or Land Contract is acceptable. **Tax records, Quit Claim Deeds, and Restrictive Deed Covenants are NOT an acceptable proof of property ownership.**

COLLECTION SITE OPERATOR AND DESCRIPTION:

Specific Site Name: Enter the business name of the collection site.

Operator of Collection Site: The name of the person(s) who operates the collection site even if the same as the property owner(s).

Mailing Address: Enter the address where correspondence to the operator should be sent.

Portable Shredding Operations: If a portable tire chipper is used to process tires at scrap tire sites, please check this box.

Site Map: Attach a detailed site map that shows acreage of tire storage area (outdoor), square footage of building(s) (indoor) as covered by the bond, if required. For sites with more than 2,500 scrap tires, including where any vehicles containing tires are stored, the site map must be prepared by a Professional Engineer or licensed surveyor. The site map must match the bond documents. The site map must include dimensions and boundaries of tire storage area(s) to be used, type of storage area(s) (whole, shredded, chips, etc.), number of vehicles, bonded area(s), and type of bonding to be used (building and/or acreage). The site map must also include an indication of areas that are exempt from bonding and the dimensions and boundaries of those areas (please note that the commodity storage area[s] require that a certification be submitted to the DEQ). Please attach the commodity storage area certification, if applicable. A site map must be provided with the application each year even if the storage area(s) has not changed.

1. Number of scrap tires brought to the site during previous year (2008). If this is a new collection site, enter "0" if no tires have been brought to the site during 2008.

2. Number of scrap tires removed from site during previous year (2008): If this is a new collection site, enter "0" if no tires have been removed from the site.

3. Number of tires inventoried at the end of the year (2008). This should be the actual amount at the end of the calendar year. If none, then enter "0."

4. Number of scrap tires currently stored on site. Number of tires on site at time of applying for registration. If none at the present time, please indicate "0."

Commercial Collection Site: If the site accepts scrap tires from other than your own business/residence and you want the site to be listed on the DEQ Web site as a commercial collection site, check the "Yes" box, otherwise check the "No" box.

REGISTERED HAULERS: List the registration numbers of scrap tire haulers who brought scrap tires to your site during 2008 and the number of tires each of them brought. Attach additional pages if necessary.

DESCRIPTION OF ON-SITE PROCESSING: Indicate the types of processing done at the collection site and numbers or tons processed during 2008. A collection site with over 100,000 scrap tires must complete this section. Pursuant to Section 16903(3) of Part 169, any site where over 100,000 scrap tires have been accumulated that are not stored in a building must be processing tires.

LOCAL FIRE DEPARTMENT: Please complete the entire section. If the collection site has a storage requirement variance from the Fire Department listed, please indicate so and provide a copy of the waiver.

BONDING

EXEMPT FROM BOND REQUIREMENTS

Tires stored in covered vehicles.

Commodity Storage Area: (Certification MUST be submitted.) One or more locations within a collection site where commodities are stored if all of the following conditions are met:

1. The commodities are stored in compliance with Section 16903(1) of Part 169.
2. Not less than 75% of the commodity, by weight or volume, stored at the collection site each calendar year is removed from the collection site to an approved market during the that year, and the collection site owner or operator certifies compliance with this on a form approved by the DEQ.
3. The areas of the scrap tire collection site that are used for storage of the commodities are not larger than a total of 1 acre and those areas are indicated on a survey by a registered professional engineer submitted to the DEQ as part of the collection site registration.

Site is a processor that has been in compliance with the site requirements for one year: If a collection site is a scrap tire processor and has been in compliance with the Part 169 site requirements for 1 year from the date the application is received by the DEQ and not less than 75% by weight or volume that are stored at the collection site each year are recycled or used for resource recovery during that year, certain tires may be exempt from bonding.

BOND REQUIRED

Square Footage/Acreage: Area of each tire storage area.

Number of tires in each area.

Acceptable Bond Type: Surety Bond, Irrevocable Letter of Credit, Certificate of Deposit, or Cash Bond.

Bond Amount: Total amount of bond required for all areas requiring bonding on site. The bond amount must be consistent with the bonded areas depicted on the site map.

The following is a table to determine the amount of the bond. For the purposes of determining the number of tires on site, the number of tires stored in covered vehicles is counted. However, these vehicles are NOT required to be bonded.

Collection sites where the total number of tires stored on site is between 500 but less than 2,500 tires:

Amount of Bond = not more than \$2,500.00

Collection site where the total number of tires stored on site exceeds 2,500 scrap tires (this includes tires stored in vehicles):

Each one quarter (1/4) acre =	\$25,000.00
Each one (1) acre parcel =	\$100,000.00
Indoor Tire Storage Area =	\$2.00/square foot

Portable shredding operations: Same calculation as above.

Bond Expiration Date: The bond must cover the **entire** registration period for the current registration year. Bonds expiring before January 31, 2010, will not be adequate for registration and may result in your registration being denied.

SIGNATURE: Either the property owner where the collection site is located or the registered agent may sign. If the registered agent of the property owner signs, you must provide authorization to do so from the property owner. If multiple property owners, all those with any ownership interest or their registered agent must sign the application.
